## EMPLOYMENT HISTORY

---

**08/2019 - Present**                      **Inspector And Sale Associate**                      **American Dream Home Improvement**

Inspect homes roofs, siding, gutters, and personal property for hail damage.

Help customer file insurance claims. Then work with both the customer and insurance to get repairs.

**10/2012 - 04/2019**                      **Manufacturing It Specialist Level 2**                      **Avago/Broadcom**

IT specialist. Doing various activities from helping people wither laptop and desk tops, to designing new RFID racks and work stations all run through PC,s.

Answered daily calls for making the factory automated systems and the thousands of tools to communicate.

Created images and places them on PC's, laptops, surface pros and many more.

Ran daily virus scans on tool PC's

I was also the Lead/ Coordinator of all the other techs. I worked hand and hand with management and then communicated and tracked the other techs

**01/2005 - 08/2012**                      **Process Tech/Line Lead**                      **Woodward governor**

I started as a mechanical assembler building from blue prints.

Then I became a line lead of roughly 6 to 7 lines. I managed these lines and worked directly with buyers, planners, and management. I had to track every part and manage shipping dates as well as parts deliveries

I then became a process tech and helped design layouts for each line, and re wrote the processes to make as efficient as possible

**08/2000 - 08/2005**                      **General Forman/carpenter**                      **Colorado Jaynes Construction**

General Forman/Forman/carpenter/laborer

I was a heavy equipment operator

Ran crews ranging from 5-15 people as well as sub contractors.

I am a concrete for setter Gates, Simon's mostly.

I also laid concrete flat work and finished it

Framed commercial buildings and hung trusses.

04/1999 - 02/2000

Laborer/carpenter/operator

Wagner Building And  
Supply

Labor/carpenter/form setter

Responsible for forming, pouring, finishing concrete walls as well as flat work.

Also assisted in erecting structural steel buildings.

Cut and tie rebar.

And manage the yard or the true value store which was stocking and receiving loads of lumbar.

I also was the Forman of the insulation crew.
