I'm a hard-working detailed individual. Very punctual and I take pride in how fast I pick up new information and skills.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

Wood Worker

Schroll Cabinets - Cheyenne, WY

January 2017 to September 2020

I started as the door assembler and worked that job for about a year. Eventually I moved up to cutting raw wood and putting the panels together with wood glue to make the size of panels. After I plain the wood panel down to the required thickness, then I would cut them down to exact size to fit inside the doors.

Warehouse Supervisor/E-Cig dept

TNT/HOFFCO LLC. - Wheat Ridge, CO

February 2009 to April 2013

I was the supervisor for the e-cig department they made called Nicotek. I would get packages in on UPS, FEDEX, DHL... deliveries and I would have to count and match with packing slip and enter into computer for inventory. During the day we would get orders that we would pull product, pack and ship. Using UPS shipping. For larger products like displays. We would put on pallets and ship them through WORLDSHIP- (varies and prices all the truck company's). I would have to label pallets correctly with pack slip and BOL- (Bill of lading).

Education

High school diploma

Pikes Peak Community College - Fort Carson, CO

February 2003 to June 2003
