Work Experience

CNC Machinist/Setup

Weiser Engineering - Arvada, CO
September 2018 to Present

Here I have learned how to operate and set up on Haas mills of many different models working mostly with aluminum but we do work with steel and stainless occasionally. These mills have the renishaw probing system which I know entirely and can add it to the program if needed to probe every part. I have also worked with 4th and 5th axis setups. I confidently cut soft jaws as I need them and safely work around hard jaws without damaging them.

The last few months ive been leading the Mill Department

Machine Operator

Toledo Screw Machine Products Inc. - Rockford, IL
May 2014 to August 2018

I operate and maintain Brown and Sharp CNC's with Mitsubishi retrofitted controllers, and Tsugami BH38 and BO385 machines. Currently learning set ups on both i can change tools and edit programs tool set and center tooling including Drills, taps, chamfer tools, broachs, boring bars, form tools, and dye heads. Working with steel, stress proof steel, stainless steel, aluminum, brass, copper, nylon, and bronze. I have also operated a wire edm machine i dont recall the model of it. I also operate a forklift nearly everyday moving either pallets or bundles of 12ft material weighing up to 4000 pounds.

McDonalds Crew Member

McDonald's - Winnebago, IL
December 2013 to May 2014

I worked on the grill

Detasseling

Bauer Detasseling - Byron, IL
July 2012 to August 2012
