

DeQuincy Morris

Ok I'm Your Guy!!!!

Lakewood, CO
skudawooda@gmail.com - 8122198680

I've worked with my hands on construction projects. Laying concrete and building foundation to new homes with Progress Construction my Boss was Bob Standcombe. I'd like to do some work that I could excel and become a leader in. I love learning new things and I'm very easy to get along with. I have been working in plastics at Cook Polymer for 8 years now. I have skills in plastics and molds and materials. I have skills in machines and drying of materials. Cleaning and breaking down product and material, and human safety procedures. I have quick decision skills and socially precise. Very easy going person. Over 10 years work experience. Really looking for a place to settle in. A place that I can go back to school if they will allow me too. I'm currently filling out applications to attend online secondary education courses. I want to become a teacher I enjoy that type of work. I have over 30 credit hours in criminal justice and coaching football and am willing to do what ever it takes to finally feel safe and stable.

I worked for Diversified Maintenance part time buffing and cleaning as a janitor. And have worked lots of lawncare jobs especially lawnmower. Also worked at Manpower cleaning student buildings
Willing to relocate to: Denver, CO
Authorized to work in the US for any employer

ADDITIONAL INFORMATION

[This is the New DeQuincy Morris New and Improved!]

Hello, my name is DeQuincy Morris and I'm from Bloomington Indiana originally born to Indianapolis Indiana. My family moved to Bloomington when I was 9 yrs old. I grew up around section 8 and low income individuals but I didn't want that for myself, and my family went through a lot of drug and alcohol problems. But today everything has changed. I have made dramatic changes and have been a leader to my family over the years. I was the first to attend college of my family, next was my brother behind me. and next after that my sister. Its been very hard over the years to keep a job and keep supporting my family but i have managed to pull through. I worked 8 years at Cook. I'm extremely focused in the direction I want to take my Career. I'm just looking for the right employer that will accept me and treat me the way i feel i should be treated. Basically looking to further my career in something I love, which is plastics technology, public safety, and Football education!
