mobile: 445-787-8455 email: deavenaf@gmail.com

I am seeking out a company where I can utilize my skills as a machinist to benefit my employer, myself, and make a positive impact on our community.

PROFESSIONAL SKILLS:

- CNC Water jet, Wire EDM, and Stone Router Operation
- CNC Programming
- Manual Machining
- Metal Finishing and Patination
- Overhead Crane Operation
- Fork-Lift and Man-Lift Operation
- Hand and Power Tool Skills

EMPLOYMENT HISTORY:

Turbo Research, Inc.
Machinist

Lionville, PA
January 2022 - August 2022

My duties included the fabrication of bearing assemblies and fluid drive components for application in power plants and energy systems through the use of various machining procedures and material processing methods, careful adherence to part drawing and spec tolerances by utilizing micrometers, calipers, test gauges, dial and test indicators.

- CNC Waterjet Operator
- Manual Lathe Operator
- Manual Mill Operator
- ID Grinder Operator
- Surface Grinder Operator

S&L Fasteners
Machine Operator

Telford, PA
May 2021 to January 2022

My job duties included the programming and proofing of NC files, tooling setup before each production run, adjusting offsets based on inspection results to maintain quality standards, adhering to part tolerances with consistent measuring of critical dimensions, part bending and hand finishing, shop upkeep and lean up.

- 3 Axis CNC Lathe
- Break Shear
- Manual Radius Bender
- Hand Finishing

MVD, Inc.
Picker/Packer

Limerick, PA
September 2020 to May 2021

My responsibilities were collecting and consolidating product orders, repairing merchandise, organizing/maintaining inventory, fulfilling product requests, and auditing products for damage and inventory accuracy. Following a regular cleanup schedule to prevent buildup of excess waste materials and provide a clean and safe work environment.

- Quality Assessment
- Highly Proficient Organization Skills
- High Volume Product Repair or Alteration
- Operation of Scissor Lifts

Fine Wines and Good Spirits
Part Time Sales Associate

Royersford, PA
November 2019 to September 2020

My duties included operating registers and scanners, stocking, maintaining and auditing products, greeting and assisting customers with requests in a professional manner, maintaining a clean stockroom, knowing products features, selling points, codes and locations, upkeep of facilities and product waste disposal, processing of incoming product and organizing the stockroom to utilize optimum capacity, opening and closing store procedures.

- Efficient Organization and Replenishment
- Moderate Computer skills
- Good Interpersonal communication
- Friendly Demeanor and Helpful Attitude

Ultraflex Systems Inc
Skilled CFAB Apprentice

Pottstown, PA
April 2017 to November 2018

My duties were to fabricate custom braces from cast to finished product using 3D cad programs, horizontal CNC foam routers, solid plaster molds and precision heated plastic and foam layers, refining shape through buffing and polishing, bending and adhering hardware with straps in alignment with limb joints and ensuring proper range of motion and processing paperwork for each order.

- Manual Fabrication of Complex Parts
- Moderate CAD/CAM Skills
- Plastic Molding and Polishing

Branch Medical Group

Wire EDM Operator

Eagleview, PA

November 2015 to Apr 2017

My job was to follow blueprints and set up assigned surgical implant orders in wire EDM's, load and proof out the program, adjust offsets to maintain strict tolerances and perform consistent quality checks utilizing visual comparators and tool microscopes to ensure proper sizing while communicating with superiors, cleaning and performing maintenance on machines and operating as many as six per shift, collaborate with peers to achieve goals and filling out paperwork

- Programming and Operation of Wire EDM's
- High Precision Measuring Tools
- High Volume Machine Operation
- Medical Part Quality Control

Stone Masters Inc

CNC and Inventory Manager

Kennett Square, PA

June 2015 to October 2015

My Duties were to oversee and program for a small team operating the backend of a stone countertop manufacturer and included safely receiving, organizing and staging materials to maintain production throughout processing, which included rough shaping on the sawjet and edge refining on the two stone routers, as well I maintained the tooling, consumables and waste material inventory and logs.

- Team Management
- Workflow Organization
- CNC Waterjet and Stone Routers
- CNC Maintenance and Inventory

EDUCATION:

- High School Diploma, Boston School - Joshua Tree, CA 2007
