

# Delgadina Williams

5524 Marilyn Rd. Indianapolis, In 46226

317-658-0353

## **Objective**

Seeking a position where I may utilize my skills and knowledge as a quality control inspector & machine operator.

## **Work Experience**

2017-2019: **Vandavier Management**, Indianapolis, In

### ***Store manager/Trainer***

My primary responsibilities are to manage the store deal with any customers concerns. I check orders in from our vendors, I run register if needed and train new employees.

2013-2017: **Poly-Tainer Inc.**, Greenwood, IN

### ***Quality Control Lead/Trainer***

· My primary responsibilities are to approve first articles and make sure they are within the customer's specifications. I also train new employee's on the defects found on the production floor and show them the difference of the PET (Polyethylene Terephthalate) containers and the HDPE(high density) containers. I also chart any defects that are found on the line.

2010-2012: **Clondalkin Pharma Healthcare**, Indianapolis, IN

### ***Folder Operator/ Trainer***

· My primary responsibilities were to operate a folder, which would fold printed medical instructions that we would have to measure to make sure they were in specifications and being able to fix simple problems with our machines.

2012-2013: **Global Plastics**, Indianapolis, IN

2007-2009:

### ***Quality Control Inspector/Machine Operator***

· My primary responsibilities were to make sure each machine was running correctly, supervise employees as needed, check parts for defects and to run manual and automatic machines when needed.

2005-2007: **Plastic Solutions Inc.**, South Bend, IN

### ***Machine Operator/Quality Control Inspector***

· My primary responsibilities were to run automatic and manual machines, check parts for any defects and chart defects found.

2003-2005: **Key Plastics Inc.**, South Bend, IN

### ***Group Leader/Machine Operator/Quality Control Inspector***

· My primary responsibilities were to inspect parts for defects, run manual and automatic, use forklift when necessary and chart any defects found.
