• Jobs I have done: concrete, roofing, factory warehouse work, shipping & receiving, material handler, construction work and operated heavy equipment. I have worked on most makes & models of cars, trucks & everything in between. I still do side jobs out of my own garage, like small engines, & boats. I have installed fifth wheel plates & brake units in trucks for horse trailers. I worked mostly on International Truck repairing everything from transmissions to suspension parts, turbos, brakes, air cans, lines & hydraulic pumps, air valves. I have done the wiring on lighting systems. I do welding repairs of all kinds, I am very mechanically inclined.

Work Experience

Truck Mechanic / Welder / Mobile Technician

Ram Waste Systems
2010 to 2020

- Supervised mechanics performing all maintenance & repairs.
- Completed maintenance & repair on Garbage Trucks, components & equipment.
- Performed check list of fluid levels, air filters, tire pressure more, as part of service orders.
