## Work Experience

---

### **Warehouse Receiver**

VWR SCIENTIFIC - Denver, CO

June 2019 to Present

Receiving in pallets,checking in drivers, unloading trucks using a sit down forklift, checking for the correct amount of cases and packs for each pallet. Once breakdown is complete stock inventory into high in low racks.

### **Machine Operator**

Deline boxing display - Denver, CO

September 2016 to October 2018

As a machine operator i would feed blank boxes all different cuts and sizes into the machine we called the fifty to print logos in design's for different companies. Each day we had goals to meet when the goals were met free lunch of our choice would be severed.

### **Order Selector**

UNFI - Aurora, CO

February 2015 to March 2016

#### Responsibilities

I Pull Work orders forms from a blind box of five rows across in 10 rows down. I pull the order in it tells how many cases needs to be pulled to build the order normally about 250 cases per order. I use a Double pallet jack to help move around the warehouse we also use down time sheets to keep track of how many cases are being pulled an hour. we worked till finished which is about 12hrs shifts. UNFI is Organic food company that ships out to Whole Foods, Organic Foods,ect.
