I.T. Computer Refresh
October 17 to November 19

I worked recycling electronics, tv's, computers, batteries, etc. I worked as a forklift operator, warehouse supervisor, warehouse inventory, bailer, and battery specialist. I was in charge of 10 people making sure they were sorting computer chips to correct bins. I was to make an inventory spreadsheet of pallets daily. I inspected batteries and made sure their chemical compounds were compatible. I forklifted pallets of televisions, computers, printers, etc for the employees to disassemble for recycling

Woodward Inc. February 16 to July 16
Addeco Staffing at Woodward Inc.
October 14 to February 16

I worked in the clean room. I did an inspection of the parts to make sure the last bit of fragments were gone. Wash parts inspect for debris sent to our out area. When we got it back, inspect to the .003 tolerance. Then install parts. We had over 300 different parts we had to identify and worked on that passed through our room. FAI inspections. lots of federal jobs we work on for fuel injectors for planes, trains, ships, Cummings, Caterpillar, any large engine

Fierce Moving and Labor llc. March 11 to October 14

I am currently in charge of loading and unloading semi-trucks, various sized U-haul trucks, and trailers with people's belongings.

My current position is as crew leader. I am in charge of 3 to 4 people directing them on what is needed next and what is needed to finish the job.

We lift pianos, gun safes, hot tubs, pool tables, cabinets and other heavy objects safely.

Garden Square at Spring Creek Health Care Oct 10 to June 14

I worked in assisted living. It is filled with people that could can take care of themselves but still needed help to take care of some things.

Take trash out of every room, serve food, clean rooms, keep the common room clean, laundry, fill oxygen tanks, take menus, etc.

I was in charge of ordering supplies for the company, cleaning supplies, toilet paper, etc.

Murry and Stafford April 10 to August 10

I got trained on a cat forklift moving various pallets of construction supplies and also dumping old fixtures into trash. Clean up around the jobsite daily to leave it nice over the night and weekends. Various jobs of carpentry, ceiling tile, HVAC installation, demo of old fixtures, inventory counts, painter, etc.

Load and unload the truck with supplies to move from location.

I also was around lots of people and helped with customer services.
