Career Focus

Jack-of-all-trades, on the fast track to a life long and full spectrum career in Machining, Fabrication, and Design. Design and programming through Mastercam Versions X7, X8, X9, and 2017. Operating multiple machines simultaneously consisting of CNC, Hybrids, and Manual Lathe/Mills.

Summary of Skills

- Excellent at working with and managing teams.
- Efficient at all types of mechanical repairs
- Professional can-do attitude
- Experience with G-code writing and manipulation through software and at CRT
- Proficient and Certified use of Mastercam design software
- Proficient at manual and CNC Mill/Lathe setup
- Experience with TIG, MIG, and Oxygen Acetylene welding
- Extensive experience unloading materials by hand and with a team/forklift(s)
- Experience with extreme spectrum of materials + custom exotics
- Skilled and proficient with operating Manual and CNC Mill/Lathes
- Proficient with all measurement and calculation equipment
- Experience with fabrication equipment (benders, brakes, shears, presses, vertical and horizontal band-saws, saw blade welding, grinders, drills, support tooling, etc.)
- Proficient salesman (willing to listen to customers needs and advise accordingly)
- Experienced in wide range of tasks
- Physically able to adjust to demanding environments
- Consider NO job too difficult to accomplish

Experience

- ◆ Three and a half years of Machining experience with all types of machines and fabrication equipment. (4+ years experience including Machine School)
- ◆ Solid base for machining career from Machine Tool Technology Program at CNM (Albuquerque).
- ◆ Mastercam training and certification from CNC Software, inc. in Phoenix, AZ.
- ◆ Extensive problem solving and research skills.
- ◆ Owned and managed Landscape business for six years.
- ◆ Coached and led 2 dock/back-room crews in addition to successfully operating in a separate PMT position generally reserved for upper management.
- ◆ Preventative Maintenance Technician (repairing fridges, oven/ranges, washers and dryers, TVs, riding mowers, chainsaws, etc.)
- ◆ Experienced in placing commercial orders, shipping, taking inventory, etc.

Education and Coursework

Mastercam Design – 2017

Certificate – Mill and Lathe Essentials Training
CNC Software, Inc.
Phoenix, Arizona, United States

Machine Tool Technology - 2014

Attended one year in program.
CNM, Main Campus
Albuquerque, New Mexico, United States

Business, Bachelors Program - 2013

Attended two years in program.
New Mexico State University
Las Cruces, New Mexico, United States

Welding Basics - 2011

Attended one year.
University of New Mexico
Los Alamos, New Mexico, United States

High School Diploma - 2010

Diploma
Cunico Christian Boys Academy
Los Alamos, New Mexico, United States

Work History

Machinist, Hand Precision Machining – April 2015 to September 2018
Los Alamos, NM

General Labor, Paul Parker Construction – 2015
Los Alamos, NM

Copy and Print Machine Tech, Staples – 2014
Albuquerque, NM

Salesman, The UPS Store – 2013
Las Cruces, NM

Dock Coach and Preventative Maintenance Technician, Sears – 2011 to 2013
Las Cruces, NM

Owner/Manager, Dom's Landscape and Lawn – 2006 to 2011
Los Alamos, NM

Accomplishments

- Owned and managed landscape company for six years.
- Led many large groups (6+ individuals) backpacking, camping, hunting, fishing, hiking, biking, boating, conservation, and charity trips over the course of the last 10 years.
- Successful at repairing and building all things mechanical.
- Proficient at all things machine and fabrication oriented.
- High School Diploma.
- Several years of College Courses and Trades Training.
- Mastercam Software Certification.

Extra-Curricular Activities

- Hunting, fishing, hiking, biking, camping, backpacking, archery, orienteering, ultimate Frisbee, Off-road vehicle trips
- Off-road Vehicle Builds
- Custom parts fabrication
- Anodization
- Knife-making
- Woodworking
