720-791-7353

1. I am a hard working, kind, intelligent, laid back person, that enjoys the work environment, and being around people. When I have something to do I do it, and don't stop until it is finished, then when it is done I move on to the next thing to do and don't slack off afterwards. When there is nothing to do I find something to do. I have taken a semester class at Front Range Community College on interpersonal communication, a semester of English, and History. I have four years of work experience at The Home Depot, they are one of the top companies in the world that have the best customer service ratings in the World, and they teach that to their employees on a regular basis. I have worked at Good Will for 5 month's as well. I love to play basketball, watch movies, and play video games. Overall I consider myself a fun, kind, out going, and fairly laid back person to be around, that is wanting to make a difference in our community and in the World, and would be a good fit for whatever job opportunity I get involved in, Also, I will binge race anyone who asks for a week straight at Unser Racing!
