I take pride in my work and myself for doing a job well done or above expected. I have several skills and I enjoy being tasked and able to use them to the fullest extent. I have owned my own company in the past and have an understanding about things being done on time as well as all the expenses typically involved. I know if a job is done right and on time or sooner than expected that everyone usually benefits from it. It helps build confidence, moral and when people are getting things done and working together as a team smoothly it makes for a good working environment. I'm very self motivated and I don't mind working on my own as well.

Authorized to work in the US for any employer

Work Experience

Loader Operator

Adams Construction Company - Mount Airy, NC

Present

I operate a Cat 950 loader to fill material bins. I also grade land, load trucks, move machinery and much more.

laborer

Richlands, NC

February 2022

I have been in the mechanics field for over 20 years. I can fix everything from small engines to diesel tractors and trucks. I know how to replace hydronic lines and with the right equipment I can do fabrication work. I also can replace and rebuild motors and much more.
