

DUSTIN BLUE

PROFILE

I am a young entrepreneur with the passion to serve others, and the ambition to change the world.

EXPERIENCE

SOLAR ENGINEER – NEWPOWER – LOVELAND COLORADO – 2016- CURRENT

A few of the tasks and responsibilities that I am in charge of at NewPower are as follows; I am the warehouse manager, responsible for maintaining and organizing the solar installation materials. I am also the lead surveyor, responsible for completing the surveying and engineering aspects of the job. I also have achieved and maintained my electricians apprenticeship. I am also a certified solar installer with OSHA training.

OWNER– SHARP PAINTING OF COLORADO – FORT COLLINS COLORADO – 2013-2016

I started a small painting llc with a partner and grew from a company of 2 to 8 in a matter of months. We did everything from staining fences to brand new residential interior and exterior. I demonstrated a lack of patience for employees that had no desire to work and I decided to stop this llc due to my passion for solar and renewable energy and found a job in the field.

HEAVENS VIEW WINDOW CLEANING – LOVELAND COLORADO – 2015-2016

Part time window cleaning job I acquired while having my llc. I was responsible for meeting a daily window quota and did it with ease. Mostly new residential homes and a few businesses.

ROETHLISBERGER DAIRY FARM – UPPER SANDUSKY, OHIO – 2008-2012

This is the first job I maintained while in High School. I grew up right next door so I had the opportunity to work there. Here I was responsible for milking and feeding a couple hundred cattle. I drove tractors, skid loaders, atvs, and combines. This job taught me a lot about work ethic and leadership.

EDUCATION

SENTINEL CAREER CENTER – CERTIFICATE OF ENGINEERING 2012 – 4.0

UPPER SANDUSKY HIGH SCHOOL – 2012 – 3.6

SKILLS

I have various technical and physical skills. These are as follows : Proficient at most computer skills except programming and web development, A few programs I know very well, Inventor, Solid Works, Cad 3d, word, Excel, AutoCad, Helioscope. I have an apprenticeship in electricity, an Osha training card, and an ability to read blueprints and schematics very well.
