Profile

As a teacher and student, I am always willing to help where I am able to and learn new things as I go. Life is to be explored with respect to a responsibility as an individual in a team environment. I do not have all the answers and I am far from perfect, but together in a group effort the possibilities are grand and the value should be priceless.

Job Objective

To make a difference in my community and help others to gain courage and to overcome life's obstacles. To help everyone I possibly can to push themselves physically and emotionally out of their comfort zone to achieve personal goals never before imagined due to lack of confidence. To learn and grow personally while passing on knowledge and keeping an open mind to new ideas and solutions. "To strive for the perfection of Character." – dojo kun #1
