Authorized to work in the US for any employer

## Work Experience

---

### **Welder**

Phillips & Temro Industries - Delano, MN

January 2019 to Present

My job involved reading blueprints, assembling, and welding each part to dimension. The materials I welded on include steel, stainless, and aluminum of all sizes and thickness. For most jobs the product carries 2 forms of fluid that cannot mix so every part had to be air pressure tested for leaks. Through my job I made products for Ford, Volvo, Arctic cat, Caterpillar and more.

### **TIG Welder/Fabricator**

Paragon Store Fixtures - Big Lake, MN

April 2018 to December 2018

My job mostly involved reading blueprints and TIG welding fixtures from the ground up square and to dimension. We used a variety of metals including mild steel, stainless steel, aluminum, and brass. Through Paragon I've welded store fixtures for MCM, Kate Spade, Saks Fifth Avenue, and other companies.

### **MIG Welder/Fabricator**

Northern Metal Products - Saint Cloud, MN

August 2017 to February 2018

At Northern Metals I MIG welded store fixtures and other custom jobs for a variety of companies including Best Buy, Kohls, Google.

### **Personal Care Assistant (PCA)**

Accra Care - Becker, MN

January 2014 to August 2017

I worked at a foster home for teen boys who have special needs and behavioral challenges. I worked with two teenage boys full time.
