RE:  
Eddie V Vanzant  
4301 Evergreen Dr  
Vadnais Heights MN 55127

To Whom It May Concern:

Eddie V Vanzant was seen and examined 10/27/2015. He fell at home injuring his left knee today. I am worried he has torn his left knee anterior cruciate ligament. He is referred to Orthopedic Surgery. He may work but must wear a knee immobilizer. He will not be able to kneel or squat. His ability to lift and pivot will be limited.

Sincerely,

Bradley K Olson, MD
