WORK EXPERIENCE

Welder/Fabricator

The weld and fab shop - Fort Collins, CO - 2017-10 - Present

Custom weld and fan any and all things to blue print for the customers.

Sterile Processing tech

UCHealth - Fort Collins, CO - 2016-11 - Present

- Decontaminated, inspected, sterilized and documented instruments used in the medical field mainly in the OR.
- All instruments used range from tray sets to scopes, saws and drills and many more items that are commonly used in the medical field
- Assisting with aseptically opening any items needed in the OR is sometimes needed to help nurses and surgeons perform their surgery's.
- Administered quality assurance during all phases of SPD such as decontamination for all soiled instruments. Inspect well over all instruments and wrap and package all and finally sterilize and set for the field over again.
- Operated in a professional manor and performed in a clean sterile environment

Central Service Technician/Sterilization Technician

Allosource - Centennial, CO - 2013-01 - 2016-08

- Decontaminated, inspected, sterilized and documented equipment used in donor processing.
- Equipment ranged from small surgical tools to medium sized donor processing equipment.
- Restocked equipment for donor processing technicians and assisted where needed.
- Administered quality assurance during all phases of the decontamination and packaging process.
- Operated in a clean room environment

Welder

Colorado Iron and Metal - Fort Collins, CO - 2010-06 - 2012-01

- Assisted with project design, planning and execution for customers and contractors.
- Worked with various types of metal and gained proficiency in ARC, MIG, TIG, Aluminum TIG, and spool gun welding techniques.
- Designed and developed training courses for local businesses and associations to educate industry professionals on proper welding techniques and safety.
- Proficient with many types of small/large machinery used around the shop and on projects.

Welder

Connell Resources - Fort Collins, CO - 2004-08 - 2007-09
