Fuel station - In charge of cash register sales, cleaning the fuel islands, Stocking store products as well as taking inventory on certain products sold in store and keeping track of them on required paperwork.

EDUCATION

North High School - Denver, CO

ADDITIONAL INFORMATION

I have great social /teamwork, organizational skills and I am also a fast learner! My employment at Safeway has allowed me to gain excellent communication skills dealing with the public day in and day out. Speedco taught me how to work in a fast paced setting that required long shifts to meet demands. Working in fabrication at Viking, has allowed me to learn how to bundle in a fast paced environment as well so that I could keep up with the operator to avoid backing up on orders that needed to go out. Throughout my previous employments, I also have been forklift certified and learned how to weld. I am comfortable working in any fast paced demanding settings thanks to my work experiences. I am

sure that my skills will assist in your Organization on a daily basis if given the opportunity.
