EDUCATION

DIPOLMA

Hennepin Technical College 2014

CERTIFICATE

Summit Academy OIC 2012

CERTIFICATION

CDA Technical Institute 2004

SKILLED WELDER/CONCRETE LABORER

Skilled welder with proficiency in MIG, TIG, flux, and stick welding, oxy acetylene, cutting process, and metal fabrication. Specialized in using torch, plasma, air sac, stick weld, and forklifts. Capable of reading and interpreting blueprints, drawings, and diagrams.

Experience with all aspects of concrete laying and masonry work.

SKILLS

- MIG/TIG Welding
- Flux Cored
- Arc Welding
- Cutting Processes
- SMAW Blueprint Reading
- OSHA 30 Certified
- Confined Spaces
- Knowledge of 0.35-3/32 wiring

RELEVANT WORK EXPERIENCE

MAINTENANCE MECHANIC

AmericInn – Bloomington, MN Jan. 2017 – Present

- Prioritize maintenance needs to meet the needs of hotel guests
- Performed urgent, corrective and routine repairs of electrical, mechanical, plumbing and HVAC equipment
- Completed preventative maintenance to eliminate equipment failure
- Work independently on various maintenance projects
- Provide a high level of customer service

TIG WELDER

Lakeville, MN Jan. 2016 – Nov. 2016

- Applied various skills to fabricate car components
- Analyzed blueprints
- Utilized welding skills to create custom classic car parts
- Laid out, fitted, and fabricated metal components
- Reviewed and verified completed work to ensure conformance of designs

FLUX CORE/MIG WELDER

Superior Iron – Elk River, MN

June 2015 – Dec. 2015

- Applied various skills to fabricate building framework and supports
- Performed cuts using oxy acetylene torch
- Used punch press to make holes in iron beams
- Operated a crane to ensure safe movement of all finished projects
- Read blueprints
- Performed all welding processes by way of .035 or .045 wire during the welding process

MIG/TIG WELDER

Bell Manufacturing and Fabrication – St. Louis Park, MN

Dec. 2014 – June 2015

- Applied various skills to fabricate furniture for leading high-end furniture company
- Assessed and completed welding assemblies per project specifications
- Performed welding processes using MIG welding
- Regularly tested all weld for quality and tolerance
- Used templated and necessary tools to measure components for the welding process

STICK WELDER/MAINTENANCE MECHANIC

Deli Express – Eden Prairie, MN

Oct. 2014 – Dec. 2014

- Applied various skills to perform high quality maintenance and repairs on buildings and equipment
- Strong welding skills
- Performed urgent, corrective and routine repairs of electrical, mechanical, plumbing and HVAC equipment
- Completed preventative maintenance to eliminate equipment failure
- Met and exceed organization expectations

FLUX CORE WELDER

Zero Zone – Ramsey, MN

March 2014 – Oct. 2014

- Applied various welding skills for refrigeration systems
- Perform thermal cutting and grinding activities
- Weld metal and other components to fabricate or repair products
- Repair broken or cracked parts as required
- Position and clamp components for welding purposes

SMALL BUSINESS OWNER/OPERATOR

Watson Interior Paint – St. Louis Park, MN

Sept. 2011- Oct. 2012

- Applied various construction and painting skills to customer specifications
- Applies necessary preparation materials, enamels, and paints to walls and ceilings
- Install, repair, and maintain drywall and textured surfaces
- Erect scaffolding, staging, ladders, and planks to reach all work areas
- Manage the business operations and staffing

CONCRETE LABORER

Cleveland Cement Company

2005-2007

- Managed prep work for cement installation
- Skilled worker in all aspects of concrete and masonry installation and repair
