I am a very family oriented person willing to work tremendously hard to provide for my loved ones, this is what motivates me everyday to take pride in my work. Furthermore, I'm a social and outgoing person driven to achieve any goal set in front of me. Some key highlights of my personality are being; a productive and efficient worker driven to succeed and further advance my skills, a detailed oriented person who prides himself on being accurate and precise, an organized person who can create a fluent working system out of a mess. I am proficient with a computer and have great social, critical thinking, analytical, and leadership skills. I have experience in Customer Service, Construction, Warehouse, and leadership Roles. Also, I earned my Associates Degree in Industrial Engineering from Kansas State University. Therefore, I have the unique capability to mix my intelligence with a strong work ethic to be able excel in any tasks set in front of me.

Authorized to work in the US for any employer
