## Work Experience

---

### **CNC Lathes/Mills Machinist**

C-Axis

June 2018 to Present

- Proficient in the use of standard measuring equipment including Zeiss CMM and Micro-Vu Vision System
- Run and operate Fanuc Robodrill 4th and 5th axis mill, Mori DMU 5th axis mill, and Nakamura dual turret lathe with live tooling in the production of medical components
- Experience with 4th axis setups

### **CNC Machinist**

Mid-Continent Engineering

May 2017 to February 2018

- Responsible for running production runs on CNC Mills
- Performed tool changes and off-sets
- Experience with light set ups

### **Medical Assembler**

MEDTRONIC

June 2016 to May 2017

- Operated multiple machines producing battery parts in a dry room environment
- Sealed anodes via hand soldering iron
- Tested product to ensure no leaks are present
- Recorded production numbers

### **Machine Operator**

401 Manufacturing

June 2016 to May 2017

- Operated Mori Seiki and Doosan CNC lathes
- Performed offsets/adjustments as necessary
- Inspected product to verify it is within tolerances

### **Machine Operator**

TCR Engineered Components

May 2015 to June 2016

- Operated Acme Gridley machine

- Performed tool set ups and changes
- Inspected parts after they were machined

## Education

---

### **High school diploma**

## Skills

---

- Blueprint Reading
- CNC
- CNC Lathe
- CNC Milling Machine
- Calipers
- Manufacturing
- Micrometer
- Preventive maintenance
- GD&T
- Precision Measuring Instruments
- Assembly
