## Objective

20 years manufacturing professional looking for a challenging and rewarding Leadership role, CNC programming, or a Machinist position with an innovative, world class company offering opportunities for educational and leadership growth while also being able to advance through the demonstration of my full potential.

## Experience

**1998-2003, 2005-Present**                      **Senior CNC  
Programmer/Fabrication Lead**

Karcher North America | 1351 W. Stanford Ave, Englewood, Colorado 80110

I am part of the leadership team of the Fabrication Department for a subsidiary to a worldwide multi-billion dollar Company. My responsibilities include leading a crew of 25 in the fabrication and machining department and solely in charge of the programming and operation of lights-out automation, 4 press brakes, 2 sheet metal lasers, 1 robotic welder, a 3-axis mill, and a 5-axis mill. I work with our Engineering department and NPD teams on the creation and implementation of new products and make sure that our manufacturing capabilities can build product to their spec while achieving the best quality and the most amount of cost savings possible. We are a shop that practiced the Lean Manufacturing and 5S principles, and I am responsible to make sure that we adhere to these practices by conducting monthly audits.

## Skills

Leadership, SAP Business Software, RobotStudio Robotic Programming Software, SurfCAM Milling Programming Software, TOPs Laser Programming Software, AutoPOL Press Brake Programming Software, ABB Robots, 3-Axis Mills, 5-Axis Mill/Router, 100 Ton Press Brakes, CNC Lasers, Robotic Welding, 5S, Lean Manufacturing.

## Education

**2015 - Present | Colorado State University Global Campus**  
Working towards B.S. in Business
