WORK EXPERIENCE

Floorhand

Helmerich & Payne, Inc. - Grand Junction, CO - 2017-06 - Present

Floorhand duties- tailing pipe in during drilling process, tripping in and out, running st-80, rigging up and running casing, Nipple up and down, preventative maintenance on all rig equipment. Also work the Derrick pulling back pipe during trip outs and latching pipe during drilling and tripping in. Any other labor duties and housekeeping to support the drilling process.

Warehouse Operator

Leprino Foods - Greeley, CO - 2015-09 - Present

As a warehouse operator my main responsibility is to operate a stand up forklift/ reach truck to put away items as well as picking items for outbounds, Using RF units to scan along with SAP program. Maintaining the warehouse as far as cleaning and troubleshooting issues is also a key part of my responsibility. Loading outbound trucks and receiving inbounds, along with creating any necessary BOL's and other paperwork as needed is also a major part. I am also the relief when team leads have the day off, or are out, which means planning out the days plans and passing them along with the rest of the team members. Employee of the month on multiple occasions as well as most efficient forklift operator on based on weekly statistics.

Swamper/Laborer

Westroc Oilfield Services - Milliken, CO - 2015-04 - 2015-09

Responsibilities

Swamper for a drilling rig moving crew, hook up and load rig components onto trucks using chains/slings/bridals. Rig up and down drilling rig, make sure all items are securely chained down on trailers/ spot trailers into position/ any other general labor duties associated with the rig moving process

Accomplishments

Safe work practices, ability to learn the process of moving a rig quickly.

Skills Used

Quick decision making, always putting safety first, using hand signals to guide drivers, communication skills,

Forklift Operator/Warehouse

Pepsi Beverages Company - Greeley, CO - 2015-02 - 2015-06

Responsibilities

Operate sit down forklift, build pallets of merchandise and load them onto trailers using forklift. Stack and unstack materials with forklift. General upkeep of work area.

Accomplishments

I was able to reach what was expected of me production wise in 3 months after just 3 weeks. Able to use my previous warehouse experience and fast paced work environment history to be successful in a short amount of time.

Skills Used

Attention to detail, able to operate forklift and pallet jack in safe, efficient manner. Communicate with coworkers to complete the daily task in a safe, productive manner.

Pipeline General Laborer

BlackEagle Energy Services - Berthoud, CO - 2014-09 - 2015-01

Responsibilities

Pipeline general labor duties such as load and unload skids from trailers, bolt ups, swamper for equipment operator, help with tie ins and lowering in, general clean up of work area

Accomplishments

Being my first pipeline job, I was able to adapt quickly and learn the profession and what is expected of me. Learned the process of pipeline construction, which allowed me to become a valuable asset to the team.

Skills Used

Safe work practices, hand signals to communicate with operator, dependable and always on time to work. Hand tools knowledge and identification of fittings and pipes.

Operator Assistant
