

EUGENE V GOREE

Objective

Seeking long term employment with an organization where I can have a continuous and rewarding career at a position that includes the possibility of advancement, to further enhance my skill, knowledge and experience while welcoming the ever changing facets of today's technological advancements within my chosen industrial profession.

SUMMARY OF QUALIFICATIONS

Machinist(Mills and Lathes)

- Programming, set up and operation of Tree 425 and 325 machines with Dynapath controllers
- Set up and operation of the following CNC milling machines:
Fadal*Harding*Haas VMCs*Mazak Vortex 1400/160-II*Okuma/Millac 853PF-5X,
Cincinnati 20v w/Centriod Controls* Mori Seiki milling centers*Mazak Intergrex e1550
Mazak FH 8800*Makino 98
- Set up and operation of Harding Conquest T42 SP lathe
- Manual lathe set up and operation.
- Planned machining by studying work orders, blueprints, materials, locations of surfaces, and machining parameters; interpreting geometric dimensions and tolerances.
- Tolerances to within .0002 of an inch
- Quality checks performed during in process manufacturing engaging multiple tools of measure.

Machine Operator(60 and 70 Ton Press)

- Operated multiple celled machines after set up
- Performed changeovers quickly yet accurately
- Measured produced parts every half hour to have continuous scrap free runs
- Performed machine maintenance and rebuilt perforating dies to minimize downtime
- Machined die parts as necessary to allow for continued operation

Machine Operator(CVD Bernex Furnaces/Plasma Burner)

- Set up, operated, and maintained Fanuc CNC controlled 10 and 30 ton presses
- Minor electrical, pneumatic, and gas valve repair
- Entered data for proper gas/vapor mixture and disbursement into CVD chambers
- Operation of 10 and 20 overhead cranes
- Plasma cutting of different thicknesses of multiple metals
- Hazmat, CPR and First Responder trained
- Chemical handling, mixture and EPA disposal

Utility Personnel /Warehouse/Demolition

- Experienced and certified with sitting, standing and side loading lifts
- Experienced with backhoe, front shovel and most tractor attachment operation
- Experienced with Warehouse and Demolition equipment
- Experienced with electrical and mechanical assembly of wind turbines

Manager/Area Manager

- Recruited, trained, developed and directed new employees into associated staff
- Handled day to day operations, including merchandising, bookkeeping, inventory, cash management, etc.
- Provided important research for key aspects of the business such as pricing, customer preferences, and sales curriculum
- Implemented necessary steps to transition fledgling locations into profitable ranges

Frac Tech Operator III/ Shift Push Lead

- Experienced with high horsepower water pumps, filter pods, frac tanks, manifolds, pick up truck related equipment, and most all water transfer related equipment
- Delivery, installation and repair of water transfer equipment
- Instructed crew via radio, the necessary information of amounts, adjustments, the shut downs and start ups to push water to pads and frac locations via the Anadarko underground trunk line in Weld County and surrounding areas , as well as above ground lay flat hose
- Supervised crew as to placement, for the nights' staffing requirements

Employment History

08/2019 to present	CNC Machinist/Programmer	Stolle Machinery Englewood Co
11/2016 to 08/2019	Frac Tec/ Push Lead.	AandW Water Service Fort Lupton Co
09/2013 to 10/2016	CNC Machinist	Manes Machine Fort Collins Co
09/2014 to 03/2015	CNC Machinist/Programmer	Design Metals Fort Collins Co
03/2013 to 09/2013	Plasma Burner Tech	Ryerson Metals Commerce City Co
05/2011 to 08/2013	Press Operator/Machinist	BSI Chattanooga TN
05/1997 to 03/2003	Manager/ Area Manager	Tony Maroni Restaurants Renton Wa

Education

1988	Business Management/ Mar	Chicago State University Chicago IL
2013	Com. Science/ Programming.	DeVry University Decatur GA

Professional Excellence Summary

Performance Driven and Highly Motivated Professional Industrialist, whose attention to detail and desire to get it done is beyond reproach.
