## Work Experience

---

### **Sculpture Production**

DuChateau Sculpture Services - Loveland, CO

November 2015 to March 2020

My position at DuChateau Sculpture Services was to provide sculpture enlargements for artists. I created 3D scans and operated a CNC milling machine. I assembled the parts to create enlarged replica of the sculpture. I did fine detailed work in clay and wax. I have some experience in making molds for fine art applications. I have experience in casting fine art sculptures in resin. I am comfortable using most power tools. I have skills in meticulous and precision work.

### **Sculptor's Assistant**

Victor Issa, Sculptor - Loveland, CO

January 1993 to October 2015

My 20+ years working for Victor Issa including a wide range of tasks. I provided sculpture enlarging services which required artistic skills, using hand and power tools, and a basic understanding of geometry. I fabricated certain elements of the sculptures. I did some mold making. I cast the sculptures in resin and created faux patinas. I helped with the upkeep of the building. I cleaned and organized the studio. Generally, I assisted Victor with whatever was needed.

### **Supervisor**

Campion Greenhouses - Loveland, CO

September 1987 to May 1991

At Campion Greenhouses I supervised a crew of about 5 student workers. Also I worked doing the day to day tasks of growing plants which included daily watering, pruning, re-potting plants into bigger containers, applying pesticides, placing plants in such a way to insure proper space for light and air circulation, and maintaining a clean workspace.
