- Solar system design
- Quality assurance
- Coordination

EXPERIENCE

Solar Installer November 2020 - August 2021

Next Energy Solar | Wellington, CO

- Verified structural details by getting inside attics prior to beginning installations to check framing and supports.
- Scheduled installations in coordination with equipment delivery, customer availability, and construction schedules.
- Protected solar panel systems with application of weather sealing compounds on arrays, adjoining building surfaces, and support structures.
- Built module arrays with interconnected wiring and implemented measures to disable arrays during installations for maximum protection.

Solar Installer October 2019 - September 2020

EcoMark Solar | Fort Collins, Colorado

- Assisted in the installations of solar photovoltaic systems on both residential and commercial projects.
- Work from ladders and roofs to install, maintain, or repair solar photovoltaic wiring, equipment, or fixtures.
- Diagnose malfunctioning systems, apparatus, or components, using test equipment and hand tools to locate the cause of a breakdown and correct the problem.
- Install ground leads and connect power cables to equipment.
- Assisted journeymen electricians in the installation of pvc pipe runs as well as wire pulls.

Labourer November 2018 - August 2019

AC Eagles | Fort Collins, Colorado

- Assisted mainly in the finishing/remodel of home basements from start to finish (i.e. Carpentry, electrical, plumbing, fine woodworking and various floor type installations).
- Build or repair cabinets, doors, frameworks, floors, or other wooden fixtures used in buildings, using woodworking machines, carpenter's hand tools, or power tools.
- Shape or cut materials to specified measurements, using hand tools, machines, or power saws.
- Install hardware, such as hinges, handles, catches, or drawer pulls, using hand tools.

Production Worker April 2018 - November 2018

Vestas | Windsor, Colorado

- Assisted other production workers in the building and finishing of wind turbine blades.
- Set up and operated pressurized vacuums.
- Periodically inventory and organize material.
- Constantly keeping a safety state of mind.
- Take actions to avoid potential hazards or obstructions, other equipment, other workers, or falling objects.

Apprentice Lineman

April 2017 - March 2018

Foothills Energy Services | Franktown, Colorado

- Passes tools to line crew or network crew members by acting as a general helper on the ground.
- Handles cables, conduit and other materials as directed.
- Glues conduits together.
- Assists in setting transformers.
- Assists line crew with setting poles by shoveling or piking; fills anchor holes.
- Notifies customers of impending disruption of service while lines are under repair Flags traffic to protect employees and the public from injury.
