(720)-621-4259

I have been doing warehouse work since I entered the workforce at the age of eighteen. Working from retail logistics to both fulfillment and distribution centers alike. Forklifts are like my second vehicle; I have driven riding, standing, walk-behind, picking, and turret forklifts. I understand almost all aspects and functions of any warehouse that I have stepped into. Having a key detailed eye is important to help a warehouse succeed with accuracy. I am fast paced compared to my fellow coworkers. I am eagerly looking for an opportunity to grow and prove my knowledge that I have gathered over almost ten years in warehousing. I can be a valuable asset to your company given trust and the right opportunity. Thank you and have a good day!

Authorized to work in the US for any employer
