Work Experience

Automotive Mechanic

Gaspar's auto - Aurora, CO

February 2020 to Present

I repair any and all cars , I diagnose all issues possible and I also build custom cars. I can change water pumps , belts, timing belts, valve cover gaskets, valves, rockers , camshafts , sensors , intake manifolds , intake manifold gaskets, radiators, thermostats, pulleys, engine covers , wire harnesses, splice wires, rebuild an engine, take out an engine , also transmission filter change , take a transmission out and put it back in, i know how to fix and replace driveshafts , differentials, axles , wheel hubs, struts, lower and upper control arm, power steering racks, rack and pinions, also know how to bleed a coolant system and flush it out, brake work, also know how to do some body work.

Order Selector

Shamrock Foods Company - Aurora, CO

May 2023 to June 2023

Picked food orders/ used a electric pallet jack around the warehouse to pick up the items on the order list and bring it back to the conveyor belt operator and then went back to get a new order to fill out.

Moving company

Ideal moving & storage inc

July 2015 to September 2015

I would move 5-6 houses a day unload semi trucks with heavy equipment, house belongs, load the truck up with the movers belongs used to picking up heavy things all day and being in my feet.
