Versatile CNC Machinist with three years of experience in running lathes and mills, reading blueprints, monitoring gauges and high tolerances, as well as doing setups per the programmers specifications. Highly organized and hardworking with a collaborative nature, great listening skills and very adaptable.

Work Experience

CNC Machinist

NFT Inc - Golden, CO

January 2020 to Present

- Coordinated inventory and cost control programs.
- Set up and operated production equipment according to daily work orders and safety procedures.
- Kept parts within close tolerances of design standards to maintain optimal quality
- Performed routine maintenance on machines and monitored usage in order to reduce parts break down.
- Using measuring instruments to inspect parts.
- Inspected finished products for quality and adherence to customer specifications.

CNC Operator

Neo Industries

January 2017 to January 2019

- * Kept parts within close tolerances of design standards to maintain optimal quality.
- * Change out aging tools, fixtures and offsets.
- * Completed work on time and moved it to proper staging area for disposition.
- * Adjusted machine feed and speed if machine malfunctioned.
- * Maintained clean and organized work areas.
- * Inspected finished products for quality and adherence to customer specifications.
- * Coordinated inventory and cost control programs.
- * Set up and operated production equipment according to daily work orders and safety procedures.
- * Planned and laid out work to meet production and schedule.
- * Unloading incoming material for future jobs.
- * Performed routine maintenance on machines and monitored usage in order to reduce parts break down.
- * Using measuring instruments to inspect parts.

Heavy Duty Mechanic

Usa Eagle Carports

April 2016 to January 2017

- * Welded broken parts and structural members, using electric or gas welders.
- * Read and understood operating manuals, blueprints, and technical drawings and overhauled and tested machines or equipment to ensure operating efficiency.

- * Utilized various methods to perform routine and preventive maintenance tasks on heavy equipment, including skid steers and forklifts.
- * Assessed equipment to determine the cause of issue or malfunction and identified the type of repair that would be required.
- * Focused on repairing company equipment and worked on other brands, maintaining strong knowledge of issues and appropriate fixes.
- * Removed defective wiring systems, hydraulics, and breaking systems and replaced with new parts, enabling machines to return to service.
- * Carefully disassemble equipment using hand tools and hoist to begin repair work.
- * Processed work orders and prioritized jobs.

Auto Body Technician

Caliber Collision

October 2014 to April 2016

- * Replaced or repaired parts to complete daily work orders on vehicles.
- * Evaluated vehicle schematics to assess required parts and order accordingly.
- * Removed debris and other duties as assigned by the manager.
- * Reviewed work orders and communicated with prior shift to assess work needs for the day.
- * Maintained tools, equipment and work sites.
- * Continually cleaned work areas and equipment.
- * Worked overtime, including evenings and weekends.
- * Processed work orders and prioritized jobs.
- * Managed work with little supervision.
- * Used hand tools to mount, install, and secure tools.

Education

High School Diploma

Northwest High School

June 2014

Skills

- Detail-oriented
- Strong communication skills
- Strong work ethic
- Dependable independent worker
- CNC operator
- Knowledge of CAD-CAM software
- Blueprint reading interpretation
- Setting up machines
- Loading materials
- Sketches and materials interpretations
- CNC

- Cnc Lathe
- Cnc Machine
- Cnc Mill
- Fanuc
- Mazak
