## SUPPLY CHAIN, INVENTORY CONTROL, PLANNING, FORECASTING

Creative, problem-solver in supply chain/inventory control, analysis, purchasing, management, and product forecasting with more than 25 years of experience. Seeking a position that will capitalize on my strong assets within inventory management, procurement management, leadership and team-building skills.

## PROFESSIONAL EXPERIENCE

### AMAZON

#### ***Contracted Purchaser***

**July 30, 2018-September 2018 Thornton, Colorado**

POD Transfer original team member, Amnesty & Robotics/POD Quality Control. During my short assignment with Amazon, I helped the company go live in a new location. I participated and followed the culture of the company: Dive Deep, Ownership, Earn Trust, Think Big, Deliver Results, Learn and be Curious, Customer Obsession, Hire and Develop the Best, Insist on the Higher Standards, and at the same time: *Work Hard, Have Fun, and Make History.*

### GROUP PUBLISHING, INC.

#### ***Inventory Control Specialist, Planning and Inventory Control Manager, Purchasing Manager, 1997-2016 Loveland, Colorado***

Utilized strong leadership skills to save the company's assets and transform inventory management processes thereby resulting in increased efficiency.

- Managed Purchasing, Inventory Control, and Product forecasting operations by using Oracle ERP.
- Forecasted and managed the daily supply chain of various commodities for goods and services in excess of \$11M annually.
- Negotiated with major suppliers in the United States and China to better manage products housed in the US. *One project resulted in a new 90-day term which resulted in greater company cash flow and VMI (Vendor Managed Inventory.) Also forecasted sales and inventory, introducing just-in-time and Kanban principles to the company's leadership. This eliminated the need for company to build additional warehouses with starting cost of \$5,000,000 or so.*
- Managed four associates who played various roles in supply chain system, Initiated purchasing manuals and establishment of strict inventory control procedures.

- Transformed purchasing and inventory control management system through use of ORACLE ERP by involving in selection, implementation, testing, training others, and going live.
- Served on a committee that oversaw the migration of data from one system to another. *This initiative resulted in better management and control of inventory and increased satisfaction for both internal and external customers as they relate to established KPI's.*
