

Henry Doller

Service Engineer at Monktons Machine Tool

dollerhenry@yahoo.com

Summary

I worked for Triangle Manufacturing for 4 years and gained allot of my knowledge in repairing cnc machines . Machinery I have experience with are: Haas, Trumph Laser Markers, Makino MMC, Citizen lathes, Hardinge lathes, Hasegawa, Tsugami screw machines, and Mori-Seiki lathes. I can use a Renishaw ball bar test equipment and make adjustments to machine to be more accurate. Now I am working for Monktons Machine Tool expanding my knowledge of all these machines.
