Work experience

ISS Facility Services @ Detroit Metro Airport

December 2013 — March 2014

General Cleaner

Through ISS Facility Services I did a lot of general cleaning for 3 months of experience. The work I took part in played a huge role in making a clean environment for Detroit Metro Airports staff, pilots, workers and passengers whom step foot within the airport's restrooms, main lobby, Ground Transportation Area, Baggage Claim and overall facility. Nevertheless I did a lot of routine cleaning during my time at ISS, for example, vacuuming, dusting, mopping, sweeping, stainless steel polishing and policing on the concourse were major operations within the airport. In conclusion I am no longer working with ISS Facility Services due to layoffs and budget cuts, so in March of 2014 I was let go.

MCTI Housekeeping

October 2013 — November 2013

General Cleaner

MCTI stands for Michigan Career & Technical Institute; its a trade school located near Kalamazoo, MI and while I attended there I did custodial as my trade when I went through 20 weeks of intensive hands on training in this field. After school I worked at MCTI Housekeeping M-F, 3 hours every night. Every week each person on the housekeeping crew was assigned a certain job within the building, stainless steel polishing, restrooms, classrooms or trash removal were the assigned jobs on the campus a person could be assigned to. Furthermore at MCTI Housekeeping I did a lot of general cleaning like for example, disinfecting tables, mopping floors, dusting, stainless steel polishing in elevators, drinking fountains, window cleaning, trash removal, restrooms, classrooms restoration and etc. Floor Machine use on classroom floors and frequent use of disinfectant products were an everyday part of this job as well when cleaning.

Staffline Staffing Services

July 2013 — September 2013

Warehouse Worker

Staffline Staffing Services had me working at a company called Mastronardi Produce in Livonia Michigan; and at Mastronardi Produce I did a lot of work with vegetables at the warehouse in a cold environment. Constant lifting and packing of produce on a 12 hour shift from 5 A.M-5 P.M. Mon-Thurs. This position was temporary work for me because I went back to finish up the custodial program at Michigan Career & Technical Institute.

Wendy's Old Fashioned Hamburgers

July 2012 — January 2013

Crew Member

As a crew member in various positions at Wendy's I dealt with consistent change in a fast paced environment, for example stocking a station full of product before a major lunch rush occurred, making sure meat was on the grill, chicken was cooked, fries were down in the fryer or in fry containers and the store parking lot was clean and ready for business. Every time I came to work my uniform had to be neat, tidy and my appearance well groomed, shirt tucked in, name badge on and hands washed before I started work. We were a store that was known for fast service, fresh food and friendly employees with courteous service. I took pride in that. After lunch rushes numerous chores were appointed to me to be completed in a small portion of each shift, trash was to be taken out, dish washing, food preparation, changing of soda dispensers were a regular day, re stocking fries, meat and chicken drops were also needed to be done before I left for the day. Constant washing of the floor throughout the store with disinfectant cleaner was an every day routine among the job too. I left in January 2013 to pursue college.

Qualifications

20 weeks of intensive on-campus custodial training.

Knowledgeable of various types of general cleaning practices.

Certified through Spartan cleaning.

Education

Custodial

May 2013 — November 2013

Michigan Career & Technical Institute

During my course in the custodial program at Michigan Career & Technical Institute I was taught all about the basics in custodial such as how to properly clean and maintain custodial equipment. I did 20 weeks through a 6 month period in Custodial. The schooling I had has helped me gain more knowledge in the field and it has helped me tremendously.

Interests

Reading, writing, literature and science.

Learning new chemical products and different custodial machines.

Sports, Music, study of the human anatomy and making friends.
