Professional Summary

A results driven individual seeking employment with an organization that will promote professional growth, as well as opportunities to utilize my skills and back-ground in a professional environment. Equally adept at working well independently with little oversight.

Capable of maintaining quality of work, while being an effective team member with much understanding of the job process and team needs.

Willing to relocate: Anywhere

Work Experience

Mechanical/electrical Assembler

Power Temp Systems-Houston, TX

May 2022 to June 2025

- Operated and maintained electrical tools and equipment, ensuring reliability.
- Participated in continuous improvement initiatives to streamline assembly processes.
- Conducted self-inspections to ensure compliance with quality assurance standards.
- Interpreted schematics for panel layout and wiring, enhancing accuracy and efficiency.
- Utilized various hand and power tools for panel modifications and assembly mounts.
- Installed control panels within systems, performing rigorous testing and repairs.
- Executed troubleshooting protocols, ensuring systems met functionality standards before customer shipment.
- Applied 5S and Lean manufacturing principles to maintain organized and efficient workspaces.
- Clean electrical components using appropriate cleaning solutions and tools.
- Drill precise holes in equipment for control unit installation and wiring.
- Fabricate parts and structures according to technical specifications using various tools.
- Conduct quality inspections to ensure compliance with standards.
- Assemble wiring harnesses and perform final assembly of electronic units.
- Collaborate with engineers to improve assembly processes and efficiency.

Server/bartender

BUFFALO WILD WINGS-Houston, TX

October 2018 to December 2024

- Serving food and beverages while maintain high quality formal table service to over 100 + customers daily
- Ensure proper presentation and preparation of food products and beverages
- Responsible for organizing large parties, reservations, and special requests efficiently and accurately

- Troubleshooting mechanical breakdowns
- Reading, analyzing, and interpreting technical procedures, electrical schematics, blueprints, service manuals, and work orders to perform required maintenance work
- Disassembling/installing new machines, condition monitoring sensors, equipment, etc.
- Routinely calibrate and perform preventative maintenance of industrial equipment.
- Proposed plan and developed timeline to revise and reorganize standard operating procedures in compliance with industry regulations, increasing team efficiencies and reducing safety hazards
- Exercise critical-thinking skills when inspecting, troubleshooting, and diagnosing instrumentation and equipment

Package Handler

FEDEX-Houston, TX

March 2021 to August 2021

- Responsible for scanning and loading packages on to trailers in an efficient manner
- Safely handle fragile or hazardous products
- Completed comprehensive training on warehouse safety protocols and package handling procedures in a high-volume environment.
- Efficiently operated electric tow motors to transport packages and containers to designated areas, ensuring timely delivery.
- Expertly loaded and unloaded materials, optimizing conveyor belt operations to enhance workflow efficiency.
- Conducted thorough inspections of containers and products to ensure compliance with packing specifications and quality standards.
- Maintained cleanliness of work areas and equipment, utilizing appropriate cleaning solutions and tools to uphold safety standards.
- Collaborated with team members to streamline operations, resulting in improved productivity and reduced processing times.
- Utilized time management skills to prioritize tasks effectively, consistently meeting tight deadlines in a fast-paced environment.

Mechanical Designer/ Commissioning Agent

JM GROSS ENGINEERING-Houston, TX

September 2019 to February 2021

- Responsible for designing mechanical equipment using the Revit system
- Created verification checklists in excel for Industrial HVAC equipment
- Performed technical safety trials to ensure equipment operated as designed
- Occasionally help lead contractors submit and file reports to Chevron, Exxon Mobil, and various data centers for equipment that needs repair/redesign
- Must keep a professional and neat appearance at all times
- Prioritized safety protocols to achieve a zero-harm workplace environment.
- Participated in post-commissioning reviews to assess system performance and identify future enhancements.
- Conduct thorough performance evaluations of HVAC systems to ensure optimal functionality and compliance with design specifications.
- Implement rigorous testing procedures, identifying and troubleshooting issues to enhance system reliability.

- Coordinate with project teams to develop and execute commissioning plans tailored to specific project requirements.
- Ensure all commissioning activities are completed in accordance with project timelines.
- Provide technical support to clients and stakeholders, ensuring seamless communication throughout the commissioning process.
- Utilize industry-standard software for reporting and analysis, facilitating data-driven decision-making.

Electronic Mechanical Assembler

Power Temp Systems

Education

High School Diploma

Cypress Lakes High School-Cypress, TX

August 2014 to May 2019

Skills

- Math
- Service technician experience
- Problem solver
- Cabling
- Restaurant experience
- Soldering (2 years)
- Leadership
- Moving
- English
- Quality control
- Microsoft Office
- Computer literacy
- Manufacturing
- Assembly (2 years)
- Delivery driver experience
- Electrical assembly
- Cooking
- Electrical Wiring
- Automotive diagnostics
- Cash handling (5 years)
- Data entry
- Computer operation
- Electrical parts
- Construction painting (6 years)
- Mechanical knowledge

- Parts Inspection Troubleshooting
- Signal Testing positive and friendly attitude
- Retail math (5 years)
- Computer skills
- Resistor Identification
- Self-starter, confident and able to work
- Service focused with little to no supervision
- Field service
- Capacitor Handling
- Schematics
- Sales
- Dealership experience
- Accounting
- Communication skills (6 years)
- Front desk
- Stocking
- Frame carpentry
- Administrative experience
- Customer service (6 years)
- Handyman experience
- Electrical systems
- System testing
- Automotive repair (5 years)
- Electrical maintenance
- Analysis skills
- Facilities maintenance
- Organized and detail oriented
- Machine Operation
- Programmable logic controllers
- Tool Calibration
- Electrical experience
- Basic math (10+ years)
- Tooling
- Organizational skills
- POS (5 years)
- CAD
- Precision measuring instruments
- Time management
- Proficient In Component Level
- Microsoft Outlook

- Power tools
- Warehouse experience
- Mechanical troubleshooting
- QuickBooks (4 years)
- Cash register (5 years)
- Office experience
- Forklift (3 years)
- Quality inspection
- ADP
- Aloha POS
- Windows
- Hand tools (10+ years)
- Mechanic experience
- 10 key typing
- Electrical troubleshooting
- Hardworking team player with a flexible,
- Blueprint reading
- Databases
- Drafting
- Connector Assembly
- Phone etiquette (2 years)
- Microsoft Word
- Food service
- Voltage Measurement
- Assembly Line Experience
- GM vehicles
- Management
- Microsoft Excel
