Subject: walked out

Jeremy Tierney and Tom Owen showed up this morning Jeremy asked me if he was going to be working and if I need him, I said yes and he said okay. 5`o clock came and Jeremy and Tom had walked out without letting anyone know I would like for them to be replaced. They left with no reason. This really affects my production. I need two replacements ASAP. They were hired for the tumbler room it didn't worked for them. I found them a different spot, I have try to work with them. They just don't want to put any effort on their work.
