OBJECTIVE

Looking for a company that I can grow with and use my skills to further advance my career as a machinist.

JOB HISTORY/DUTIES

Machine Operater

Bizal Manufacturing
Fridily,MN

Start Date: 02/2006 End Date: 08/2009

I ran parts for three years on CNC machines. I measured parts with all the tools. I can load in new tools and set offsets on machines. I set up machines and took care of them like emptying chip bins and adding fluids. I've worked with Funuc controls mostly. I also know how to read blueprints and can keep parts to close tolerances. I have indicated vises in and switch jaws for vices. I have also used go gauges and am good at deburring parts with a deburring tool or with a deburring knife. have also used a variety of drill presses to finish pars after parts have been run through the machine. I know how to maintain the machine and check fluids in it.

Temp

Mid-West Staffing
Brooklyn Park,MN
