## Work Experience

---

### **TRIMMER OP**

WEST FRASER

December 2017 to July 2018

Primary responsibility to operate the #1 trimmer. This position required me to adhere to all safety procedures while maintaining and exceeding volume expectations. Secondary responsibilities included basic maintenance to the machines and using power tools, hand tools and heavy machinery to clean up.

- Reached and exceeded monthly company budget of 42,000 board foot per hour for the first time in over two years and maintained it every month after.
- Set record at 560,000 board foot for most volume produced in a shift.
- Trained 4 workers how to operate the trimmer.

### **MACHINE OP/MILLWRIGHT**

WINN TIMBER

August 2017 to December 2017

My primary responsibilities were maintaining sufficient production by operating "the tower" and maintenance to the mill. My second responsibility was to use heavy machinery to load trucks and perform cleanup tasks.

- Achieved weekly quota in four days rather than five days several times allowing us to spend more time doing maintenance to the mill.
- Reduced downtime by efficiently operating key machines in the mill.

## Education

---
