INTERFACIAL CONSULTANTS

Prescott, Wi

Machine Operator/Material Handler/Research Assistant

12/2014 to 03/2016

Inspect, collect, interpret, analyze and compile data obtained from material testing. Offer familiarity in basic hand and machine tools. Assist in the research of new product design production. Deliver outstanding written and verbal communication skills. Research a variety of materials utilized in production of products. Operated manufacturing equipment to maximize product throughput and minimize downtime. Completed housekeeping and maintenance duties in the production area. Monitored and maintained machine and water parameters. Ran plastic injection molding machines and peripheral equipment. Exemplified a positive attitude as a team member in a dynamic, fast-paced environment. Entered data into manufacturing batch records and opened problem notifications when required. Set up work stations and changed over injection molds.

BEST MAID COOKIE COMPANY

River falls, Wisconsin

Drop Operator

01/2013 to 12/2014

I ran a giant cookie extruder. My responsibility was to evaluate my runs for the day using their work order forms, and

set up my machine accordingly. I ran the preform B line. My responsibility was to shape the cookies accordingly and ensure proper quality. My typical day was 56,000 lbs. of cookies a day. Usually I could get away with less than 400 lbs of wasted dough.
