Work Experience

Carpenter

Murray and Stafford-Denver, CO

May 2015 to September 2024

- Utilized a variety of tools and equipment such as saws, drills, sanders, and routers to complete carpentry projects
- Read blueprints, drawings, and sketches to accurately measure materials needed for each project
- Performed precise measurements and cuts to ensure proper fitment of materials
- Installed doors, windows, trim work, and molding with attention to detail for a polished finish
- Assembled wooden frameworks or structures based on construction plans or verbal instructions from supervisors
- Collaborated with other tradespeople such as electricians and plumbers to ensure seamless integration of carpentry work into larger projects
- Maintained a clean and organized workspace throughout the duration of each project
- Followed all safety protocols when operating power tools or working at elevated heights
- Assisted in the selection of appropriate lumber or other materials needed for specific projects while considering budget constraints
- Operated heavy machinery including table saws, planers, and jointers safely
- Ensured compliance with building codes and regulations during all stages of construction
