## **PROFESSIONAL SUMMARY**

Machine Operator

## **SKILLS**

---

Machine Operator, Production and Assembly

## **WORK EXPERIENCE**

---

### **Amazon**

Kenosha, Wisconsin  
production/packer  
scanning and packing product

### **Nestl'e confections**

Burlington, Wisconsin  
Bagger/operator

- Adjust machine components and machine tension and pressure according to size or processing angle of product.
- Attach identification labels to finished packaged items, or cut stencils and stencil information on containers, such as lot numbers or shipping destinations.
- Clean and remove damaged or otherwise inferior materials to prepare raw products for processing.
- Clean packaging containers, line and pad crates, or assemble cartons to prepare for product packing.
- Clean, oil, and make minor adjustments or repairs to machinery and equipment, such as opening valves or setting guides.
- Count and record finished and rejected packaged items.
- Monitor the production line, watching for problems such as pile-ups, jams, or glue that isn't sticking properly.
- Observe machine operations to ensure quality and conformity of filled or packaged products to standards.
- Package the product in the form in which it will be sent out, for example, filling bags with flour from a chute or spout.
- Regulate machine flow, speed, or temperature.
- Remove finished packaged items from machine and separate rejected items.
- Secure finished packaged items by hand tying, sewing,

gluing, stapling, or attaching fastener.

- Stack finished packaged items, or wrap protective material around each item, and pack the items in cartons or containers.
- Stock and sort product for packaging or filling machine operation, and replenish packaging supplies, such as wrapping paper, plastic sheet, boxes, cartons, glue, ink, or labels.
- Stop or reset machines when malfunctions occur, clear machine jams, and report malfunctions to a supervisor.
- Supply materials to spindles, conveyors, hoppers, or other feeding devices and unload packaged product.

**Chrysler Corp.**

Kenosha, Wisconsin

Production Machine Operator CNC

- Move controls to set cutting specifications, to position cutting tools and workpieces in relation to each other, and to start machines.
- Compute dimensions, tolerances, and angles of workpieces or machines, according to specifications and knowledge of metal properties and shop mathematics.
- Observe milling or planning machine operation and adjust controls to ensure conformance with specified tolerances.
- Record production output.
- Turn valves or pull levers to start and regulate the flow of coolant or lubricant to work areas.
- Verify alignment of workpieces on machines, using measuring instruments such as rules, gauges, or calipers.
