## Professional Summary

---

I learned the basics of welding back in High School during shop class. I moved to Tennessee and went to a technical school there for their welding program. I graduated early with high test scores on all my welds for Stick, Mig, Flux, and Tig in all positions. I've learned a lot since then and have earned the respect of many of my bosses and Coworkers for my skills.

Authorized to work in the US for any employer

## Work Experience

---

### **Welder/Fabricator**

BEAM GLOBAL-San Diego, CA

January 2023 to August 2025

I've been cross trained on multiple stages of manufacturing Beam Global Products. Each station having varying materials, Thickness in metal, and processes. At Beam most welding I do is in Flux core, although Im the employee they go to for Tig Aluminum when needed. I also volunteered to do travel work for them for 3 months, flying out to varying locations to inspect units in the field.

### **Welder/Installer**

FABRITECH-Harahan, LA

October 2021 to December 2022

As a welder at Fabritech, I manufacture and install, on occasion, custom built awnings and signs. My responsibilities include consulting blueprints for necessary awning materials, gather and prepare project materials, precisely assemble and weld awning materials, remove slag and soot where necessary. Majority of the material I welded on was very thin aluminum with Mig.

### **Team Lead**

Regal cinemas-Clarksville, TN

August 2019 to May 2021

As a team lead at Regal, I was responsible for counting and rotating inventory, training new employees, grant refunds and ticket exchanges, as well as, floor staff responsibilities when necessary. Those floor staff duties included upkeep of theaters for our guests, properly disposing of waste, assisting guests with ticket and concession purchases etc.

## Education

---

### **Combination Welding (Technical School)**

Tennessee College of Applied Technology-Clarksville, TN

June 2020 to April 2021

### **High school diploma**

Denair High School-Denair, CA

August 2014 to May 2018
