

Jared Otto

CNC Machinist

Fort Collins, CO 80524

jaredotto7_ti8@indeedemail.com

+1 970 290 5432

Experienced and fast-learning professional offering extensive knowledge in CNC operations as well as some mill and lathe setup experience. Particularly skilled in operation multiple machining centers and lathes. Constantly looking to improve at my skilled trade.

#readytowork

Authorized to work in the US for any employer

Work Experience

CNC Machinist

PCS Ferguson - Erie, CO

June 2017 to Present

Responsible for maintaining a +/-0.005 tolerance typically, but as low as +/-0.001 tolerances were not uncommon. I setup lathes and occasionally the 3 axis mills. Moved around from machine to machine often, learning different interfaces, and occasionally working on multi-turret machines.

CNC Machinist/Operator

Super Vacuum - Fort Collins, CO

August 2016 to May 2017

CNC machinist who does his own setups and works alone for the shift without supervision. Maintain on average .005in tolerance, but not uncommon to see as low as .001. Run multiple machines (2-3) including 2x VF3 Haas Mills, 1 VF7 Haas Mill, and 1 SL30 Haas Lathe.

CNC Operator/Set-up

PCS Ferguson - Erie, CO

December 2015 to June 2016

Gained some setup experience while machining oil and natural gas parts. Ran 1-3 machines while maintaining tolerances as low as +/-0.001" and worked on various metals from brass to stainless steel.

CNC Operator

Grede LLC - Menomonee Falls, WI

April 2013 to December 2015

Measured instruments to verify compliance with precise specifications. Trained, directed and instructed apprentices and helpers. Measured, marked and indicated proper dimensions and reference points on materials and work pieces for future reference. Made appropriate offset corrections for tool wear, broken tools and casting variations. Gauged and maintained tolerances on grinding diameters, depths, flatness, and parallelism. Maintained logs, lists and files and promptly completed all necessary paperwork.

Education

High school diploma

2010 to 2012

Skills

- Machine Operator (7 years)
- Machine Setup (3 years)
- Cnc Mill
- CNC
- Cnc Machine
- Cnc Lathe
- Axis
- Calipers
- GD&T
- Micrometer
- Coordinate Measuring Machine

Additional Information

I am looking to expand in the future to be able to fully program, and my goal is to eventually become a mechanical engineer.
