Additional Qualifications

I am an accomplished, trusted, automotive technician with extended experience. My background includes driveline, drivability and extensive problem solving.

I am Viper certified as of 2014.

I have been a Team Lead Technician for four years.

I am fluent in light fabrication of metal and plastics to improve current applications of design.

I have near perfect attendance from the beginning of my career.

I want to change directions with my technical abilities for new opportunities and am very willing to learn something new and listen to new ideas.
