## Professional Summary

---

Seasoned Production Lead and CNC Machinist with over three years of experience in Expertise machining and 20 years concrete finishing, and heavy equipment operation. Currently a ● Leadership production lead at Wheelpro Dynamics with 7 employees and 16 machines, I oversee ● HAAS VF2-6 production orders, ensure timeliness, and handle SAP inventory tracking. My role includes ● Doosans reporting on wage coverage, production levels, and job prioritization in board meetings. As ● Mastercam a CNC Machinist Setup Technician, I specialize in setting up and operating Haas VF ● Board Presentations machines, installing and aligning tools, and interpreting technical drawings and schematics ● Excel to produce high-quality parts. My extensive experience at Cook Concrete as a batch plant ● Forklift Operation operator, OSHA certified forklift operator, and concrete finisher, along with my diverse skill ● Communication set in light MIG welding and backhoe operation, makes me a versatile and reliable ● Car Engines professional in any industrial environment. ● Punctuality

## Work Experience

---

### **Production Lead Mills/Lathes**

Wheelpro Dynamics-Ogden, UT

September 2021 to Present

- Leadership and Oversight: Lead a high-performing plant with 7 employees and 16 advanced machines, ensuring optimal productivity and team cohesion.
- Production Lead : Track and oversee production orders, guaranteeing timely completion and adherence to schedules.
- Inventory Control: Utilize SAP for efficient inventory tracking and management of production orders.
- Strategic Reporting: Present detailed reports in board meetings on wage coverage, current projects, production levels, employee attendance, and job prioritization.
- Talent Acquisition: Conduct interviews to identify and recruit skilled machinists, enhancing team capability.
- Hands-On Supervision: Actively supervise and step in to cover any gaps, ensuring seamless operations and team support.
- Process Improvement: Lead inventory and 5S meetings to drive continuous improvement and organizational excellence.
- Efficiency Achievement: Consistently exceed the plant's required efficiency rate of 91%, achieving an average of 115% with my team.
- Waste Reduction: Implement strategies to maintain low waste percentages across the team, promoting sustainability and cost-effectiveness.

### **CNC Machinist Setup Technician**

Wheelpros Dynamic-Denver, CO

September 2021 to April 2023

- Machine Operation: Set up and operated Haas VF CNC machines for efficient and precise production runs.
- Tool Calibration: Installed and aligned machine tools, ensuring accurate calibration for optimal performance.

- **Data Input:** Inputted data and commands into the machine control system to execute precise operations.
- **Technical Interpretation:** Interpreted technical drawings and schematics to produce high-quality parts according to exact specifications.
- **Troubleshooting:** Diagnosed and resolved mechanical issues during production to minimize downtime and maintain workflow.
- **Quality Assurance:** Maintained a high level of attention to detail, ensuring all parts met or exceeded quality standards.
- **Safety Compliance:** Followed strict safety protocols and procedures to ensure a safe working environment for all team members.

## **Machinist**

True Position-Ogden, UT

September 2019 to September 2021

- **Rapid Skill Development:** Began with no prior experience or knowledge, quickly learning and excelling in machinist duties.
- **Part Finishing:** Deburred parts coming off machines, ensuring smooth and finished products.
- **Machine Operation:** Worked extensively with HAAS VF3s and Fifth Access machines, gaining proficiency in their operation.
- **Top Producer:** Recognized as the highest producing member of the team, consistently meeting and exceeding production targets.
- **CAM Software Expertise:** Worked heavily with Mastercam, utilizing it for programming and optimizing machine operations.

## **Batch Plant Operator / Finisher / Foreman**

Cook Concrete

April 2002 to July 2019

Redding, CA pror x

- **Foreman Responsibilities:** Supervised and coordinated work activities, ensuring tasks were completed efficiently and safely, and maintaining high standards of quality and productivity across the team.
- **Mixer Operation:** Prepped, serviced, and operated the Voeller Mixer, ensuring consistent and high-quality concrete mixing for the entire plant.
- **Forklift Expertise:** OSHA certified forklift operator, safely and efficiently handling materials and equipment.
- **Concrete Finishing:** Specialized in concrete finishing, including sewer base and storm drain finishing, delivering smooth and durable surfaces.
- **Power Tools Usage:** Frequently utilized a variety of power tools, including light MIG welding and torch operations.
- **Heavy Equipment Operation:** Operated backhoe to fill material bins, supporting efficient plant operations.
- **High-Volume Mixing:** Mixed concrete for the entire plant, handling over 40 yards to meet production demands.

## **Skills**

---

- Punctuality (10+ years)
- Excel to produce high-quality parts. My extensive experience at Cook Concrete as a batch plant
- Leadership production lead at Wheelpro Dynamics with 7 employees and 16 machines, I oversee
- Mastercam a CNC Machinist Setup Technician, I specialize in setting up and operating Haas VF
- Communication set in light MIG welding and backhoe operation, makes me a versatile and reliable

- HAAS VF2-6 production orders, ensure timeliness, and handle SAP inventory tracking. My role includes
- Board Presentations machines, installing and aligning tools, and interpreting technical drawings and schematics
- Forklift Operation operator, OSHA certified forklift operator, and concrete finisher, along with my diverse skill
- machining and 20 years concrete finishing, and heavy equipment operation. Currently a
- Micrometer
- Schematics
- Calibration
- Quality Inspection
- Heavy Lifting
- Quality Assurance
- Supervising Experience
- 5S
- CNC Lathe

## Certifications and Licenses

---

### **Forklift Certification**
