My name is Jason McHatten, I graduated from Coal Ridge High School in 2022. All my work experience is in construction and oilfield, specifically the dirt side of it all. I have also been working for a directional boring company for the last year. I can run any piece of equipment except for a grader so far. I have experience in water line tap ins, installing sewer, conduit for anything including fiber optic. I have been a crew lead many times before and I am a Forman in my current job. I am very proficient and professional. I also have a class A CDL with big rig restrictions because my current job I drive a Ram 4500 with a trailer. I'm the guy you line out, give me what I need and next time you hear from me the task is done

Work Experience

Forman/Supervisor

Rocky Mountain Underground Construction-Rifle, CO
