I am looking to build my career with machining. I had the amazing opportunity to be accepted into an innovation campus where I worked with multiple haas machines (vm2, mini mills, horizontal lathe, tormachs) and CAD/CAM software. Machining has always caught my fascination, the extent the machine can get to is amazing and there is always something new to learn, which I love. Being able to create something and see it come to life is such an amazing feeling. I can not wait to see what the future holds!

Authorized to work in the US for any employer

Work Experience

Machinist

JR Butler - Englewood, CO

September 2022 to Present

Machine panels for commercial building glass frames, vinyl, quality check, and clean my station along with the machine.

Walmart Electronics Associate

Walmart - Centennial, CO

January 2021 to June 2021

I worked handling the Photo Booth, passport pictures, being cashier, and stocking. I worked well with customers and coworkers. If I had any doubt I would be sure to seek advice.

Education
