to physically-demanding work in fast-paced environments. Meet targets consistently by working quickly and minimizing errors. Complete high-quality finished products for customers in the food and beverage industry.

## Work Experience

---

### **Machine Operator**

RFI INGREDIENTS - Broomfield, CO

September 2018 to Present

Met quality assurance standards with regular inspections and returned low-quality work

Maximized machine uptime with well-coordinated preventive maintenance and repair actions.

Milled different food products to spec. (pulva, fitz, co mill, juicer, pulper etc)

Encapsulation - operate Bosch machine to fill capsules

Handled machine performance issues independently, including completing routine maintenance and basic repairs.

Avoided safety risks by following proper procedures and wearing correct PPE for each task.

### **Service Foreman**

Black Roofing Inc - Boulder, CO

March 2015 to May 2018

Inspected and monitored work areas, examined tools and equipment.

Adhered to company methods and industry best practices for installing, maintaining, and repairing roofs on both commercial and residential structures.

Assessed roof condition to assist in estimating repair scope, timeline, and materials requirements.

Transported tools, equipment, and materials between job sites with proven history of safe vehicle operation.

Built attractive, gap-free roofs by cutting pieces to fit around obstructions.

Provided safe roof access with proper ladder and scaffolding use.

Installed attic ventilation and special features such as skylights.

Prepared sloped roofs with plastic coatings, membranes, or felts before laying down shingles.

Added coatings like sealants, insulation and soundproofing with spray gun systems.

Built watertight roofs with use of cement and flashing strips.

Achieved optimal waterproofing with proper underlays and finishing techniques.

Prevented cost overruns by accurately estimating required materials and labor.

### **Service Foreman**

Jam Roofing - Aurora, CO

September 2012 to March 2015

Maintained equipment in good working order with regular preventive maintenance.  
Inspected and monitored work areas, examined tools and equipment, and provided employee safety training to prevent, detect, and correct unsafe conditions or violations of procedures and safety rules.  
Used measuring tools to determine quantity of materials needed for projects.  
Worked effectively with diverse team to accomplish daily objectives and meet long-term goals.  
Kept all areas clean, organized and in line with company professional standards.  
Readied roofs for new installations with quick removal of existing materials.  
Protected structures from water damage by laying correct underlays and sealing any potential intrusion points.  
Adhered to company methods and industry best practices for installing, maintaining, and repairing roofs on both commercial and residential structures.  
Handled emergency leak repairs and routine maintenance on different types of roofs.

Dry End - Northglenn, CO  
April 2010 to September 2013

Atlas | Northglenn, CO

Maximized machinery uptime by coordinating routine preventive maintenance actions on various production equipment.  
Produced high-quality work for each job by adapting quickly to changing work orders and production requirements.  
Avoided errors by maintaining clean work area and carefully following instructions.  
Standardized work for best results, following documented processes for each piece.  
Moved heavy loads with forklifts, overhead cranes and hand trucks.  
Finished products within specified tolerances, including removing imperfections and altering final dimensions.  
Read and understood the production orders to complete accurate work and minimize wasted resources.  
Set up, calibrated and continuously adjusted production equipment to achieve the desired production speed and material flow.  
Minimized safety hazards by maintaining clean and organized work areas.
