I'm seeking to gain experience & improve my skills within the metal fabrication industry. Passionate fabricator with hands on experience in MIG & TIG welding, general fabrication, sheet metal work, manual machining, and chassis design. I'm always looking for new opportunities to learn new skills and better myself and my skills daily.

Dedicated hard worker looking for a company that wants to see me grow my career as much as I do.

Work Experience

Welder/Fabricator

RSG Metal Works

November 2020 to Present

MIG weld rock sliders, front skid plates, operate CNC plasma table, CNC press brake, custom fabrication projects

Welding Tech.

PCS Ferguson/Apergy/Champion X

July 2020 to November 2020

Prep, tack, and TIG weld production parts consisting of oil/gas well lubricators, plungers and artificial lift components.

Fabricator

HM Racing and Design

March 2020 to July 2020

Bend, assemble and weld production kits/parts, Install Ford Raptor race kits, custom pre runner fabrication.

Stocker

Walmart

February 2015 to July 2020

Down stack and sort pallets of freight, then stock the freight onto shelves throughout the store.

Education

Mechanical Engineering

University of Denver

September 2017 to April 2019

Mechanical

University Physics

Skills

- Certified in MIG & TIG Welding
- Bend-Tech Design
- Tube Bending & Notching
- Forklift Certified
- Sheet Metal Work
- Manual Mill & Lathe
- Detail Oriented
- Blueprint Reading
- 2D Laser/Plasma Cutting
- Fusion 360 CAD Design
- Mechanically Inclined
- Press
- Finger
- Leaf Brake
