+1 267 815 0379

To earn my place on a team with talented individuals where my positive attitude and energy will increase production for my employer.

- Team player dedicated to detail, accuracy and deadlines
- Passionate individual devoted to servicing customers with respect
- Time conscious, fast learner towards inventory management system
- Considerate, reliable individual concerned with safety while meeting company standards

Work Experience

Material Handler

KLS logistics - Philadelphia,Pa

October 2022 to Present

Responsible for operating powered equipment for the purpose of moving, locating, relocating, stacking, and counting product.

Responsible for checking all inbound and outbound products. Ensures products are free of damage and infestation, product code dates are properly recorded and products match customer requirements. Knowledge of RF scanner and Manhattan system ensures product is correctly identified

Chemical Operator

Rimtec - Burlington,NJ

July 2019 to July 2020

Duties and responsibilities of a chemical operator has several important steps when mixing harmful chemicals together. Every day use of a Respirator is essential when mixing to keep powdered substance out of your face when pouring bags into large blender. Certain temperatures have to be reached in order for a powder substance to be converted into plastic pellets by checking heavy machinery and control board.

Certified Forklift Operator

Chemalloy - Conshohocken,Pa

September 2016 to May 2019

The daily operation of a well maintained heavy vehicle allows me to complete multiple assignments and tasks during my shift.

Proper training and safety to maneuver this equipment throughout the facility reduces the damage to material, machinery, and keeps scheduled production orders being shipped on time.

Philadelphia,PA Security

Smith's Restaurant and Lounge

June 2015 to April 2019

Part time weekend position where I ensure the safety of the patrons inside the establishment are having a good time. I monitor people by checking state issued I.D cards, make sure no one is acting aggressively or destructively, and protect property and equipment from damage.

Packaging Line Assistant

Victory Brewing company

June 2015 to May 2016

Victory Brewing company employee dedicated towards quality production when assigned to various high speed machines to reach daily quota. Consistency and quality control when ensuring thousands of bottles of brew maintained accuracy every hour when operating bottling line. Removal of products from production line. Unloading and receiving of shipments. Stock rotation, Picking orders, and Loading of trucks when using forklift truck within company.

Custodial Maintenance

Advance Commercial Cleaning - Philadelphia, PA

September 2014 to September 2015

- Sub-contractor assigned to various locations to represent my employer professionally when interacting with clients in a friendly respectful manner by being on time and reliable daily. Clean buildings by mopping and waxing floors, garbage removal, disposal of hazardous materials and empty recycle bins

Inventory Control Clerk

Berwick Distribution Center - Berwick, PA

February 2013 to August 2014

- Received and safely stored away boxes of chemicals from pallets into facility. Data entry of inventory for all products to maintain usage and disposal log on a daily basis for warehouse storage space. Maintained clean and neat working environment for team members and myself to keep shipping and receiving supply area safe.

Building Maintenance

Jefferson Home Infusion - Philadelphia, PA

March 2008 to January 2013

- Maintain upkeep of pharmaceutical office by performing duties safely when installing light fixtures, replacing floor tiles, and repairing Hood IV machine to keep production of chemotherapy medicine patient ready.
