

Jeff White

Objective I am seeking a maintenance position that will put my skills to the test and also learn new skills to increase machine reliability and reduce downtime.

Experience 2003 – 2014 Rudi's Organic Bakery Boulder, CO
Maintenance Manager

- Assigned preventative maintenances of all production and support machines to technicians and assisted as needed.
- Performed predictive failure analysis and implemented modifications accordingly.
- Found ways to improve production rates while maintaining machine reliability.
- Assisted maintenance personnel with troubleshooting and repair of all equipment.
- Traveled with plant manager to assist with evaluation and acquisition of bakery equipment.
- Trained operators on the proper operation of production equipment.
- Requested several machines to be retrofitted to utilize PLC control for parts of the processes.
- Approved the designing and implementation to complete PLC machine control for troublesome machines.
- Replaced many VFDs of various brands.
- Training maintenance technicians on the operation and repair of all equipment.
- Managed the preventative maintenance program (CMMS).
- Schedule maintenance personnel as production needs arise.
- Remained on-call at all times.

1996 – 2003 Neutraceutix, Inc Lafayette, CO
Maintenance Manager

- Performed preventative maintenances on all production equipment.
- Performed predictive failure analysis and ordered part replacements accordingly.
- Found ways to improve production rates while maintaining machine reliability.
- Trained operators on the proper operation of production equipment.

1990 – 1996 Oak Creek Wind Energy Tehachapi, CA
Technician

- Performed preventative maintenances on all turbines.
- Worked in the shop rebuilding turbine gearboxes.
- Welding as needed.
- Operated forklifts as needed.
- Followed all safety rules.
