Summary

I have my CDL and have experience in driving semi and flatbed trucks, driving forklifts, shear operations, bailer operations, conveyor belt and photo eye operations, and both pneumatic as well as hydraulic systems. Other technical skills such as oxygen/acetylene tanks for cutting metals, filling propane tanks, I also have experience in working on my own vehicles as well as autonomous maintenance on high speed machinery. My senior staff and peers have looked to me for various tasks and assignments to lead; this is due to my hard work ethic, my ability to get the job done right the first time, and my fast work attitude. I show excellent leadership, fast retention of knowledge, instantaneous decision making, and I always ensure that every assignment is done with motivation and safety.

Action Recycling Center- 1982- 2018
